

PRESENT.

ATTEND TODAY.

ACHIEVE TOMORROW.

Why B Present?

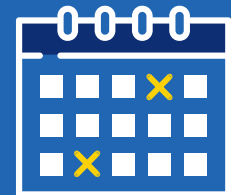

Attendance has academic impacts.

Missing school leads to missing lessons and gaps in learning. The more school missed, the harder it is to catch up.

School relationships are important.

It's harder to develop trusted relationships and a school community that is essential to long-term school success if students aren't present.

Absences can have long-term effects.

It all adds up! Missing **just one day per week** over the course of a school year **amounts to an entire month of school missed.**
