

## How to sign up for a “Flash Alert” text message

Flash alert recommends that you download their free mobile phone app and sign-for “push notifications.” However, if you don’t want to download an app, you can opt-in for email and text messages. Here is how:

1. Visit <https://www.flashalert.net/id/BremertonSD>
2. Enter your email address (work or personal) and hit “subscribe”
3. This takes you to the “Sign-Up” page.
4. Enter a password and then click “Create Your Account”
5. On the next screen, you are going to have to validate your email by providing a code that FlashAlert will send you.
6. You can then enter 2 other email addresses OR cell phone numbers to receive text messages.

**NOTE: It looks like you can only enter email addresses! BUT - you can enter your cell phone number - but you have to enter it like an email address - and it has to be done differently depending on your carrier. The email address is your 10-digit phone number @: \_\_\_\_\_**

So, if your number was 360-555-5555 and you have Verizon, you’d enter:  
[3605555555@vtext.com](mailto:3605555555@vtext.com)

If you had T-Mobile, you’d enter: [3605555555@tmomail.net](mailto:3605555555@tmomail.net)

Below is a list of the format for various mobile carriers.

Verizon @vtext.com

Alltel @message.alltel.com

T-Mobile @tmomail.net

Cricket @sms.mycricket.com

Sprint @messaging.sprintpcs.com

GCI @mobile.gci.net

ACS Alaska @txt.acsalaska.net

MetroPCS @mymetropcs.com

Alaska Digitel @alaskadigitel.com

Nextel @messaging.nextel.com

AT&T/Cingular @txt.att.net

US Cellular @email.uscc.net
